

ENVIRONMENT POLICY

B. Braun Medical Limited is committed to the protection of the environment and the prevention of pollution. This environment policy provides a framework for the introduction, development and continual improvement of our environmental protection performance.

The environmental objectives will be achieved by employing modern methods and the use of an integrated management system based upon the international standards, ISO14001, Environmental Management System and ISO 13485, Quality System.

B. Braun Medical Limited are totally committed to the compliance of all the applicable environmental legislation and regulations.

We will set environmental objectives and targets, conduct system reviews, reporting our performance to all interested parties. Communication and training of our employees will ensure they understand the meaning and importance of this policy.

The continuing achievement of B. Braun Medical Limited's environmental targets and goals in the ever changing and competitive environment of world-wide medical technology, means that all aspects of the Company's business will be regularly reviewed, and where appropriate, corrective and/or preventative action will be instigated.
