B BRAUN	IMS FORM **Quality Policy**	B. Braun Medical UK Ltd IMS UK Doc.-No.: SA-GB02-G-4-1-01-001-01-A-EN Version: 15.0 Effective Date: 09.10.2026

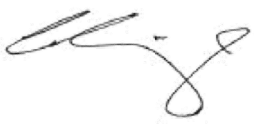

At B. Braun**,** QUALITY is key in everything we do. We, the B. Braun management and all employees, are fully COMMITTED to quality and constantly strive to make things better. We hold ourselves ACCOUNTABLE for ensuring compliance and effectiveness throughout all our processes and all our activities. We are PASSIONATE about providing high quality products and services to our patients, customers and partners.

B. Braun UK has been associated with the manufacture and provision of healthcare products and services for over 150 years. The Company Brands have worldwide reputations for quality, innovation, and service. The Company strives to deliver products and services on a right first time basis and to deliver these products in a timely manner providing a service commensurate with the Company's reputation.

The Company achieves this objective of providing its customers with well-designed products and services to the required quality standards, by employing customer led marketing techniques to bring products to the market. The technical, aesthetic and performance requirements of such products shall be assured by the application of modern design, manufacturing, and quality methods. The Quality Management System is accredited to ISO13485: 2016 and ISO 9001:2015 standards and complies with the Medical Devices Regulations 2002 (SI 2002 No 618, as amended) (UK MDR 2002), based on the Medical Devices Directive MDD 93/42/EEC, the EU MDR 2017/745 for the CE marked devices placed on the Great Britain (GB) market and any other applicable regulations. It also complies to Human / Veterinary Medicines Regulations.

The continuing achievement of quality goals in the ever changing and competitive environment of worldwide medical technology requires implementation of the concept of continual improvement. This is delivered through the provision of appropriate training in conjunction with a belief and pride in excellence instilled in all our employees. This initiative requires the active involvement of senior management in ongoing reviews of both product and service quality, and the maintenance and effectiveness of the Quality Management System.

A system of regular planned Internal Quality Audits is operated, which identifies opportunities for improvement, and which ensures that such improvements are implemented by means of appropriate and effective corrective and/or preventive action.
