

Energy Policy for B. Braun Sterilog (Yorkshire) Ltd.

SA-GB02-G-6-4-20-501-03-A-EN

Valid From 31.03.2025

Version 1.0

Page 1 of 1

B. Braun Sterilog (Yorkshire) Limited is committed to using its facilities, and carrying out its activities, in an energy efficient way. We acknowledge that standard, compliant methods for the decontamination of surgical instrumentation (i.e. through the use of heated water disinfection and steam sterilisation) consume a significant amount of energy and any reduction of the associated gross Greenhouse Gas emissions will be challenging. B. Braun Sterilog (Yorkshire) Ltd. is also committed to supporting the NHS in achieving its 'Net Zero' target. We believe in preserving natural resources, reducing atmospheric emissions, and helping to mitigate the effects of climate change.

We will:

- Set a target and commit to reduce our Gross Greenhouse-Gas Scope 1 and 2 Carbon Dioxide emissions and aim to become Net Zero for all emissions by 2045.
- Only purchase 100% Renewable Electricity effectively making associated Scope 2 emissions net zero.
- Communicate this policy and its outcomes to all our employees, stakeholders & interested parties, in order to keep awareness and commitment at a high level.
- Commit to continual improvement in energy performance/emission reduction.
- Provide awareness training (on energy use reduction) to those employees where needed.
- Utilise our Sustainability team to propose plans of action and review our progress.

B. Braun Sterilog (Yorkshire) Ltd. will use this policy as a framework for setting and reviewing energy objectives and targets to improve energy performance and reduce the relevant energy sources used, to achieve our target. Senior Management will ensure the availability of the necessary information, support and resources.

B. Braun Sterilog (Yorkshire) Ltd. will ensure compliance with all applicable legal requirements which relate to energy aspects, and other requirements to which the organisation subscribes related to energy performance, including energy efficiency and the use and consumption of energy. The company will also encourage the adaption of its operations, facilities and activities to ensure compliance with future legal changes and will establish common standards for the management of energy efficiency in all areas of the business in which it operates.

B. Braun Sterilog (Yorkshire) Ltd. considers compliance with this policy the responsibility of all individuals who take part in the company's operations and activities. This policy shall apply to all B. Braun Sterilog (Yorkshire) Ltd. sites, premises and activities. This will deliver a healthier and more sustainable environment, as well as associated cost efficiencies, to the benefit of our people, customers and the communities in which we operate.

Responsible for this policy and its commitments,

Michael Parden
Managing Director,

Craig Cannings
Finance Director,
