

SUSTAINABILITY – CARBON REDUCTION

B. BRAUN MEDICAL LTD CARBON REDUCTION ROADMAP

DONE

- Calculated our Scope 1 & 2 (Operational) tCO₂e emissions (totals; 2310 tCO₂e in 2019, 1653 tCO₂e in 2020)
- Published these emissions figures publicly via the Directors Report on Companies House
- Published an Energy Policy for B. Braun Medical Ltd (see www.bbraun.co.uk)
- Committed to reduce our Gross emissions by 40% by the end of 2035
- Switched electricity tariff to a (REGO) renewable one where we buy electricity for all B. Braun UK companies
- Set up local and global Sustainability Steering Committees to advise the boards
- Created local and global Sustainability three year Roadmaps
- Created local project groups (PAGs) in response to priority regulatory/customer requirements/questions
- Set an intensity ratio with 2019 as the baseline
- Joined the Sustainable Healthcare Coalition
- Met the leaders of the Supply Chain Coordination Ltd
- Joined the ABHI Sustainability Group

2021/22/23

- Calculate our UK Scope 3 emissions in 5 Category areas (Up & Downstream Distribution & Storage, Waste Generated in Operations, Business Travel, Employee Commuting) ETA 2022/23 (PAG)
- Consider ways to reduce our Scope 1 & 2 Operational CO₂e emissions (PAG)
- Swap more Fluorescent lights to LED
- Continue to influence & communicate with our global supply chain, our UK issues, customer & regulatory requirements
- Continue to improve our customer communications with regards to sustainability (PAG)
- Carry out an annual review of our policies to see if the commitments are being met, and whether our targets and commitments need to be changed

2022 ONWARDS

- Publish an annual Global Sustainability Report from 2022 (for 2021, which includes B. Braun UK Data)
- Consider ways to reduce our UK Scope 3 emissions in 5 Category areas (Up & Downstream Distribution & Storage, Waste Generated in Operations, Business Travel, Employee Commuting)
- Continue to reduce energy use and reduce associated emissions through further projects (PAGs)

WHY?

With sustainability as one of our core values, we take business decisions with future generations in mind.

HOW?

We commit ourselves to our common standards and global targets and bring them to life with local contributions.

WHAT?

We develop sustainable solutions, implement sustainability management and professionalise our reporting.
